

Jennifer Chang, Ph.D.

CONTACT INFORMATION	LinkedIn: www.linkedin.com/in/jenchang212 GitHub: http://github.com/j23414	
SUMMARY	Bioinformatics and workflow developer with 8+ years of experience. Familiar with workflow orchestration (Snakemake, Nextflow, WDL, Slurm) and public health workflows (Nextstrain, GATK). Track record of open-source contributions, cross-institution collaboration and translating research into tools used by labs and agencies. Prior work includes developing C++ stand-alone software for systems biology network analysis, co-founding a tech startup, creating automated USDA flu in swine surveillance reports, and working at a Bioinformatic Core to support HPC scientific computing across USDA SCINet.	
EDUCATION	Ph.D. in Bioinformatics and Computational Biology minor in Statistics Dissertation: "Designing an integrated system for biological network exploration" Iowa State University, Ames, Iowa 50010, USA GPA: 3.71/4.00	<i>Aug 2011 – June 2017</i>
	B.A. in Computer Science and Biochemistry Cornell College, Mount Vernon, Iowa 52314, USA	<i>Aug 2007 – May 2011</i>
PROFESSIONAL EXPERIENCE	Bioinformatics Analyst III (Nextstrain) Fred Hutch Cancer Center Contributed 300+ GitHub PRs to Nextstrain; authored tutorials and supported users via office hours, discussion board, and help email. While the major workflow language used in the project is Snakemake, minor wrapping of Nextstrain tools in WDL (for Terra.bio) and Nextflow (for Cirro.bio) as needed. Actively sought balance in standardization of workflows in a pathogen-repo-guide while allowing for bespoke solutions to help spin up various pathogen pipelines, including dengue, Lassa, WNV, mumps, and norovirus. Collaboratively produced seasonal influenza surveillance reports, integrating phylogenetics + antigenic data to inform projections. Delivered a Nextstrain workshop at VEME 2023; training 50+ researchers on real-time phylogenetics on location in South Africa. Published collaborative papers. PRs: 300+ GitHub PRs 40 hrs/wk. Supervisors: Trevor Bedford, John Anderson, Jover Lee	<i>Sept 2022 – present</i>
	Bioinformatics Consultant (remote Nextstrain) Remote contract work primarily contributing to the Nextstrain project. Implemented an initial Nextstrain pipeline in WDL, published it to Dockstore, and ran it on Terra.bio with the goal of providing accessible cloud computing for large-scale pathogen pipelines within Africa PGI. Collected initial benchmarks comparing compute costs and newly processed data, and created pipeline visualizations for feedback and documentation. Participated in regular online meetings, summarized research papers, while learning the team's coding and review practices. 40 hrs/wk. Supervisors: Trevor Bedford, John Huddleston	<i>Nov 2021 – Sept 2022</i>
	Bioinformatics Post-Doc, ORISE SCINet Fellow USDA-ARS ORISE SCINet Fellowship is part of the Big Data initiative to encourage cross-disciplinary, cross-location research: Contribute to and improve tutorials in the bioinformatics workbook (WGCNA). Participate in the development of and co-lead workshops on data analysis for USDA scientists. Collaborate with USDA scientists to analyze high-throughput sequencing datasets that lead to the publication of collaborative peer-reviewed publications. Designed and coordinated SCINet Corner starting in April 2021. SCINet Corner is a monthly virtual meeting space where USDA researchers from across the USA meet, share HPC best practices, listen to demos, and network. Drafted the GATK pipeline in Nextflow for Hufford Lab. Drafted the VGP Assembly pipeline in Nextflow for the ag100pest group. https://bioinformaticsworkbook.org/ 40 hrs/wk. Supervisors: Andrew Severin, Brian Scheffler	<i>Jun 2020 – Nov 2021</i>

Post-Doctoral Computational Biologist, ORISE Fellow USDA-ARS Aug 2017 – Jun 2020
Using R, Bash, and Perl in computational and statistical analysis of influenza A viruses (IAV) in swine. Collaborate with lab colleagues to develop scientific study designs for specific scientific objectives either in pigs or computational models. Prepare the quarterly surveillance report using Sweave every 3 months and present the information to scientists in multiple locations over conference calls. Select 21 virus for whole genome sequences each month which are later deposited and shared on NCBI GenBank.

40 hrs/wk. Supervisor: Amy Baker

Co-Founder Complex Computation, LLC; Ames, Iowa, USA July 2015 – August 2017
Co-founder to market Mango Graph Studio where the company provides software solutions and workshops on network analysis. Served as PI for the DARPA SBIR Contract W911NF-15-P-0040 in 2015 and for the DARPA SBIR Contract W911NF-17-P-0014 in 2016 and prepared monthly progress reports on findings. Part of the first cohort of the Iowa State University StartUp Factory in 2016. Led a team of 3 software and electrical engineers to design and develop methods on signal analysis. Presented the findings in-person to DARPA at a conference in Durham, NC. Collaborated with scientists and researchers at Iowa State University and other locations to develop network analysis pipelines to answer a variety of biological questions.

Varied from 20 to 40 hrs/wk Supervisor: Hui-Hsien Chou

Research Assistant Complex Computational Laboratory; Iowa State Univ. Feb 2012 – Aug 2017
Lucy2: updated the wxWidgets GUI, <http://www.complex.iastate.edu/download/Lucy2/index.html>
Since the update in 2013, Lucy2 has been downloaded over 700 times on all platforms (Mac, Windows, Linux)

Mango: designed and developed a network visualization software with a new graph exploration language (Gel). Won Plant Sciences Institute Scholar Grant in 2015. Presented and won awards at several conferences, see Conferences section. Mango has been licensed to Complex Computation, LLC.

20 hrs/wk. Supervisor: Hui-Hsien Chou

Teaching Assistant GEN 409 Molecular Genetics; Iowa State University Fall 2016
The principles of molecular genetics: gene structure and function at the molecular level. Graded exams and homework and provided detailed feedback.
20 hrs/wk. Supervisor: Yanhai Yin

Teaching Assistant BCB 444 Introduction to Bioinformatics; Iowa State U. Fall 2013, 2014, 2015
Ran weekly 2-hour lab sections teaching bioinformatics command-line tools, perl, genome assembly, and genome annotation to a mixture of undergraduate and graduate students. Provided mentoring and remedial help outside of lab and class times. Graded weekly assignments and exams. Authored and presented the systems biology lecture. Occasionally answered questions on study design for graduate students depending on time available.

20 hrs/wk. Supervisor: Hui-Hsien Chou

Research Assistant Lab of Dr. Eve Wurtele; Iowa State U. Nov 2011 – Feb 2012
Reprogrammed the Fuzzies game in the Unity3D environment. The game provides an interactive interface for learning basic genetic concepts.
20 hrs/wk. Supervisor: Eve Wurtele

Research Assistant Lab of Dr. Di Cook; Iowa State U. Sept 2011 – Nov 2011
Proof-read biovizbase, a Bioconductor package. Developed an exon splicing visualization function for ggbio, written in R. Presented the results to peers in a statistical graphics group and a bioinformatics graduate student group. (<https://github.com/j23414/Exon-Junction-Arches.git>)
20 hrs/wk. Supervisor: Di Cook

Webteam Student Worker; Cornell College Aug 2007 – May 2011
Update the college website, provide website development training to students and faculty.

Research Assistant Lab of Dr. Craig Tepper; Cornell College Mar 2011
Performed Sanger sequencing of fire coral samples collected from the Bahamas for a conference publication. Wrote a protocol for using 4Sale, a tool for synchronous RNA sequence and secondary structure alignment and editing.

Programmer The Squirt Project: Building a Holonomic Turtle-Bot; Cornell College Aug 2008 – Apr 2009

Worked in a team of four to design and build "Squirt," a holonomic tri-wheeled turtle-bot. A robot is holonomic if the number of degrees of freedom is greater than or equal to the total degrees of freedom. Squirt is holonomic because the drivetrain is composed of three omni-wheels mounted on the sides of an equilateral triangle. Programmed the Squirt to be autonomously and right-wall following and presented at the Cornell College Student Symposium.

part-time, varied hrs/week. Supervisor: Andy Wildenberg

HONOURS AND AWARDS	Collegian Innovation and Leadership Winner, Iowa Women of Innovation	2016
	Teaching Excellence Award, Iowa State University	2015
	Dale W. Young and W.E. Loomis Award	2015
	James Cornette Fellowship	2014
	NSF IGERT Fellowship	2011
	Outstanding Junior Award, Cornell College	2010
	First Year Computer Science Student Achievement Award, Cornell College	2008
	State 2nd Place in Java Programming, Future Business Leaders of America,	2007

EXTRA
CURRICULAR
ACTIVITIES

Bioinformatics & Computational Biology Graduate Student Organization 2011 – 2017
Provide bioinformatics related consultant work on Iowa State University Campus. Mentored two students in a project converting R code to C code. In 2014 and 2015, helped design and run the Unix and Python Workshops, each workshop lasting 4 hours. Taught Advanced Unix in Spring 2016.

GDCB Technology Committee 2013 – 2016
For the Genetics, Development and Cellular Biology (GDCB) department, attended monthly meetings and provided website design feedback and outreach. Authored and distributed a form for student feedback.

Cornell College Computer Club	<i>Aug 2010 – May 2011</i>
Led one of three teams in an all-campus autonomous robot competition. Trained team members on programming VEX Robots.	
Sustained Dialogue Campus Network	
Head Moderator	<i>Aug 2010 – May 2011</i>
Provided training to student moderators. Led weekly moderator meetings to provide feedback and keep track of dialogue groups. Served as liaison between e-board and moderators.	
Vice-President	<i>Aug 2009 – May 2010</i>
Compiled and authored over 10 documents and workshops to train student moderators. Updated and interpreted internal files. Raised over \$4000 to send 20 students to the National Conference at Princeton University. Held monthly phone conference calls with national headquarters located in Washington, DC. As a result of revitalizing the organization and increasing campus impact, received the 2010 Outstanding Junior Award.	
PROGRAMMING	Snakemake, Nextflow, WDL, Bash, R, Python, Perl, C++, wxWidgets, OpenGL, Java
CONFERENCES & WORKSHOPS	
ACM SIGCHI Conference on Human Factors in Computing Systems	<i>May 5-10, 2012</i>
International Symposium on Bioinformatics Research and Applications	<i>May 21-23, 2012</i>
Danforth Center Fall Symposium	<i>Sept 26-28, 2012</i>
Poster: "Bioinformatics Laboratory (BCBLab)"	
CRA-W Graduate Cohort Workshop	<i>Apr 5-6, 2013</i>
PSI Phenomics Workshop	<i>Nov 14, 2014</i>
Talk: "Large biological graph data analysis using Mango"	
Statistical Graphics Group Meeting	<i>Mar 5, 2015</i>
Talk: "Mango: an integrated environment for network visualization and exploration"	
Bioinformatics and Computational Biology Retreat & Symposium	<i>Mar 27, 2015</i>
Poster: "Mango: an environment for analyzing and exploring multiple networks"	
PAG Plant and Animal Genome Conference	<i>Jan 9-13 2016</i>
Poster: "Mango: an environment for combining heterogeneous networks"	
Computer Demo: "Mango: an environment for combining heterogeneous networks"	
BCBGSO Unix and Python Workshop Series	<i>Jan 28-30, 2016</i>
Talk: "Advanced Unix Workshop: working with grep, sed, and awk"	
Statistical Graphics Group Meeting	<i>Feb 25, 2016</i>
Discussion Leader: "Michael Friendly paper 'The Golden Age of Statistical Graphics'"	
Bioinformatics and Computational Biology Retreat & Symposium	<i>Mar 25, 2016</i>
Poster: "Mango: an environment for analyzing and exploring multiple networks"	
Voted 1st place for Best Poster	
3rd Annual Graduate & Professional Students' Research Conference	<i>April 12, 2016</i>
Innovative Inventions: "Mango: an environment for combining massive heterogeneous networks"	
Outstanding Innovative Invention Award	
Digital Agriculture Spoke All-Hands Meetings	<i>May 16-17, 2016</i>
Poster: "Mango: an environment for combining massive heterogeneous networks"	

StartUp Factory Iowa State University Research Park
<http://www.isupark.org/news-events/news/startup-factory-provides-new-o>
StartUp: Complex Computation, LLC
Attendees: **Jennifer Chang**, Hui-Hsien Chou, William Ash

Jun - Dec 2016

DARPA/MTO M3IC Kick-Off Meeting Durham, NC Mar 29 - 30, 2017
Magnetic Miniaturized and Monolithically Integrated Components (M3IC) meeting for the DARPA
SBIR Phase I Contract W911NF-17-P-0014
Talk: Complex Computation, LLC Phase I Progress Report

IEEE BIBM 2017 Kansas City, MO Nov 13 - 16, 2017
IEEE International Conference on Bioinformatics and Biomedicine
Workshop: The 8th Integrative Data Analysis in Systems Biology
Workshop Paper: "Cavatica: a pipeline for identifying author adoption trends among software or methods"
Authors: **Jennifer Chang**, Hui-Hsien Chou

NSF Cyber Carpentry Workshop Chapel Hill, NC Jul 16 - 27, 2018
Data Lifecycle Training
Project Proposal: Cavatica. Led 2 teams to containerize Cavatica as Docker and Singularity images over the course of a week. Each team composed of 5 graduate students or post doctorates from different universities and fields ranging from biology, statistics to social science. Answered coding questions as needed.

CANA: Center for Applied Network Analysis University of Southern California Oct 12, 2018
Valente directs the Center for Applied Network Analysis (CANA) which hosts a twice monthly, two-hour, lab meeting in which students, post-docs, and faculty present work in progress. Connected to the group via Anuja Majmundar from the 2018 NSF CyberCarpentry Workshop.
Talk: Mango Graph Studio and social network applications.

CRWAD: Conference of Research Workers in Animal Disease Chicago, IL Dec 1 - 4, 2018
Poster: "Spatial and temporal patterns of swine IAV gene constellations in the USA from 2010 to 2018"
Authors: **Jennifer Chang**, Tavis K. Anderson, Amy L. Vincent

Student Research Symposium San Diego State University Mar 1 - 2, 2019
Grew out of a collaboration after meeting Anuja Majmundar at the 2018 NSF CyberCarpentry. They used Cavatica to research E-Cigarettes and Social Media.
Poster: "Network Analysis of Social Media Data-Based Research on Electronic Cigarettes"
Authors: Taylor Perry, Christian Dominguez, **Jennifer Chang**, Anuja Majmundar, Erlinde Cornelis

Iowa State Research Day Iowa State University Mar 28, 2019
Poster: "N2 NA coordinated evolution with HA increases influenza A virus genetic diversity in swine"
Authors: Micheal A. Zeller, **Jennifer Chang**, Tavis K. Anderson, Amy L. Vincent, Phillip C. Gauger

PyCon 2019: Python Software Foundation, Cleveland, OH May 1 - 9, 2019
Poster: "Making Python libraries machine accessible"
Authors: Zebulun W. Arendsee, **Jennifer Chang**, Andrew Wilkey

CEIRS 10th CEIRS Annual Meeting, Baltimore, MD

June 23-26, 2019

Poster: "Spatial and temporal patterns of swine IAV gene constellations and reassortment in the USA from 2009 to 2019"

Authors: **Jennifer Chang**, Tavis K. Anderson, Amy L. Vincent

Talk: "Antigenic distance of North American swine influenza A virus (H3N2) and human H3N2 seasonal strains as an indication of risk to human populations"

Authors: Carine K. Souza, Divya Venkatesh, Tavis K. Anderson, **Jennifer Chang**, Nicola Lewis, Susan E. Detmer, Ignacio Mena, Marie Culhane, Martha Nelson, Adolfo Garcia-Sastre, Amy L. Vincent

Talk: "Molecular determinants facilitating sustained interspecies transmission of human H3N2 influenza A virus in United States pigs"

Authors: Joshua D. Powell, Eugenio J. Abente, Carine K. Souza, **Jennifer Chang**, Daniela S. Rajao, Tavis K. Anderson, Amy L. Vincent

CRWAD: Conference of Research Workers in Animal Disease Chicago, IL Nov 2 - 5, 2019

Talk: "Evolutionary diversification of clade 1A.3.3.3 H1 swine influenza A viruses and zoonotic risk in the United States"

Authors: Tavis K. Anderson, Kelly F. Hewitt, **Jennifer Chang**, Michael A. Zeller, Divya Venkatesh, Nicola S. Lewis, Amy L. Vincent

ISMB: 28th Conference on Intelligent Systems for Molecular Biology July 13 - 16, 2020

Virtual Attendee: <https://iscb-ismb20.myconferencenow.com>

BCC2020: Bioinformatics Community Conference

July 16 - 21, 2020

Virtual Attendee: <https://bcc2020.sched.com>

Arthropod Genomics Symposium 2020

July 21 - 23, 2020

Virtual Attendee: <https://bcc2020.sched.com>

USDA-ARS Software Carpentry Workshop

Aug 18 - 19, 2020

Virtual Helper: <https://s-canchi.github.io/2020-08-18-USDA/>

SCINet Geospatial Workshop

Aug 25 - 31, 2020

Virtual Attendee: <https://kerriegeil.github.io/SCINET-GEOSPATIAL-RESEARCH-WG/>

9th Annual Geo for Good Summit

Oct 20 - 21, 2020

Virtual Attendee: <https://earthoutreachonair.withgoogle.com/events/geoforgood20>

GLBIO 2021: Great Lakes Bioinformatics Conference

May 10 - 13, 2021

Poster: "morloc: type-directed code generation can reduce the hassle of developing scientific software"

Authors: Zebulun Arendsee, **Jennifer Chang**

<https://www.iscb.org/glbio2021>

13th Annual SISMID 2021

July 7- 23, 2021

Summer Institute in Statistics and Modeling in Infectious Diseases

Module 2: "Mathematical Models of Infectious Diseases" Instructors: Micaela Martinez; Marc Lipsitch"

Module 5: "Spatial Statistics in Epidemiology and Public Health" Instructors: Jonathan Wakefield; Lance Waller"

Module 8: "MCMC I for Infectious Diseases" Instructors: Kari Auranen; M. Elizabeth Halloran; Vladimir Minin"

Module 13: "Pathogen Evolution, Selection, and Immunity" Instructors: Trevor Bedford; Sarah Cobey"

<https://si.biostat.washington.edu/suminst/sismid2021/modules>

SISMID and SISCER 2023

July 10- 19, 2023

Summer Institutes at University of Washington

CR2301: "Design and Analysis of Clinical Trials" Instructors: Michael Proschan, Pamela Shaw**CR2305:** "Evaluation of Biomarkers and Risk Models" Instructors: Kathleen Kerr**MD2310:** "Infectious Diseases, immunology and Within-Host Models" Instructors: Andreas Handel, Paul G Thomas**VEME 2023** Stellenbosch, South Africa

Aug 20 - 26, 2023

The Virus Evolution and Molecular Epidemiology Workshop

Tutorial Teacher: "Real-time tracking of pathogen evolution using Nextstrain"Teacher: **Jennifer Chang**, Tutorial Writer: John Huddleston, TA: Nashwa Ahmed<https://veme.climade.health/>**PAG 2024** San Diego, CA, USA

Jan 12 - 17, 2024

International Plant and Animal Genome

Poster: "GATK-Flow: Deploying GATK Best Practices for Variant Discovery through a Nextflow Workflow"Authors: Viswanathan Satheesh, **Jennifer Chang**, Arun S. Seetharam, Matthew B. Hufford, Andrew J. Severin**Talk:** "Deploying GATK Best Practices for Variant Discovery"Speaker: Viswanathan Satheesh, **Jennifer Chang**, Arun S. Seetharam, Matthew B. Hufford, Andrew J. Severin<https://www.intlpag.org/31/>**CRWAD 2024** Chicago, USA

Jan 20 - 23, 2024

Conference of Research Workers in Animal Diseases

Talk: "Streamlining classification of PRRSV-2 ORF5 lineages and sublineages using Nextclade"Presenter: Michael Zeller, Co-authors: **Jennifer Chang**, Phillip C Gauger, Jianqiang Zhang, Giovani Trevisan<https://crwad.org/>**IVPS and ESPHM 2024** Leipzig, Germany

Jun 4 - 7, 2024

27th International Pig Veterinary Society Congress, 15th European Symposium of Porcine Health Management

Poster: "Streamlining PRRSV-2 ORF5 classification using Nextclade"Presenter: Giovani Trevisan, Co-authors: Michael Zeller, **Jennifer Chang**, Roger Main, Phillip C Gauger, Jianqiang Zhang<https://www.ipvs2024.com/>**VGEB 2024** Wellcome Genome Campus, UK

Nov 6 - 8, 2024

Virus Genomics, Evolution and Bioinformatics Conference

Poster: "New Nextstrain resources for real-time genomic surveillance of multiple pathogens"Presenter: Kimberly R. Andrews, Co-authors: **Jennifer Chang**, Jover Lee, Cornelius Roemer, Laura Urbanska, Louise H. Moncla, Miguel Paredes, Marcela Torres, Ivan Aksamentov, James Hadfield, Emma B. Hodcroft, John Huddleston, Victor Lin, Thomas Sibley, John S.J. Anderson, Richard A. Neher, Trevor Bedford<https://coursesandconferences.wellcomeconnectingscience.org/>**APVS 2025** Fukuoka, Japan

Nov 9-12, 2025

Poster: Standardized classification of common porcine viral pathogens using NextcladePresenter: Michael A Zeller, **Jennifer Chang**, Giovani Trevisan, Pablo Pineyro, Phillip C Gauger, Jianqiang Zhang, Rodger G Main
